Task 1:

Challenge-Based Innovation – participation in conferences of ECIU+

Employees of Ukrainian universities (1 per each partner) will be invited to conferences. By this, they would be able to increase the competence of Ukrainian university staff in implementing and disseminating the research potential as well as establish new scientific collaborations.

The project covers the accommodation and transport for 10 participants from Ukrainian universities (1 per partner) in 3 different conferences (up to 2 day-long).

Call for applications for an ECIU Associated Partner from Ukraine !!!

The ECIU European Alliance (<https://www.eciu.eu/>) wishes to establish a procedure for the official association of a university from Ukraine with the entire ECIU Alliance. We need to know who is interested!

Interested universities need to send us a brief description, including a description of the university, its research and teaching profile, key achievements, international rankings and accreditations, and links to key websites in English, so that the ECIU Presidium can reach them.

The deadline for submitting applications is **15 March 2024** (eciuroffice@adm.p.lodz.pl). If a university is already a member of another alliance, it cannot join the ECIU Alliance.
